AUSTIN, Texas, June 11, 2025 /PRNewswire/ -- Oracle Corporation (NYSE: ORCL) today announced fiscal 2025 Q4 and full-year 2025 results. Total quarterly revenues were up 11% year-over-year in USD and constant currency to \$15.9 billion. Cloud services and license support revenues were up 14% in USD and constant currency to \$11.7 billion. Cloud license and on-premise license revenues were up 9% in USD and up 8% in constant currency to \$2.0 billion.

Q4 GAAP operating income was \$5.1 billion. Non-GAAP operating income was \$7.0 billion, up 5% in USD and up 4% in constant currency. GAAP net income was \$3.4 billion, and non-GAAP net income was \$4.9 billion. GAAP earnings per share was \$1.19 while non-GAAP earnings per share was \$1.70.

Short-term deferred revenues were \$9.4 billion. Operating cash flow was \$20.8 billion during fiscal year 2025, up 12% in USD.

Fiscal year 2025 GAAP operating income was \$17.7 billion, and non-GAAP operating income was \$25.0 billion. GAAP net income was \$12.4 billion while non-GAAP net income was \$17.3 billion. GAAP earnings per share was \$4.34, while non-GAAP earnings per share was \$6.03.

"FY25 was a very good year—but we believe FY26 will be even better as our revenue growth rates will be dramatically higher," said Oracle CEO, Safra Catz. "We expect our total cloud growth rate—applications plus infrastructure—will increase from 24% in FY25 to over 40% in FY26. Cloud Infrastructure growth rate is expected to increase from 50% in FY25 to over 70% in FY26. And RPO is likely to grow more than 100% in FY26. Oracle is well on its way to being not only the world's largest cloud application company—but also one of the world's largest cloud infrastructure companies."

"MultiCloud database revenue from Amazon, Google and Azure grew 115% from Q3 to Q4," said Oracle Chairman and CTO, Larry Ellison. "We currently have 23 MultiCloud datacenters live with 47 more being built over the next 12 months. We expect triple-digit MultiCloud revenue growth to continue in FY26. Revenue from Oracle Cloud@Customer datacenters grew 104% year-over-year. We have 29 Oracle Cloud@Customer dedicated datacenters live with another 30 being built in FY26. Overall Oracle Cloud Infrastructure consumption revenue grew 62% in Q4. We expect OCI consumption revenue to grow even faster in FY26. OCI revenue growth rates are skyrocketing—so is demand."

The board of directors declared a quarterly cash dividend of \$0.50 per share of outstanding common stock. This dividend will be paid to stockholders of record as of the close of business on July 10, 2025, with a payment date of July 24, 2025.

- (5) Income tax effects were calculated reflecting an effective GAAP tax rate of 17.5% and 16.9% in the fourth quarter of fiscal 2025 and 2024, respectively, and an effective non-GAAP tax rate of 17.5% and 16.9% in the fourth quarter of fiscal 2025 and 2024, respectively. The difference in our GAAP and non-GAAP tax rates in each of the fourth quarters of fiscal 2025 and 2024 was primarily due to the non-deductible executive bonus-based compensation expense; acquisition related and other items, including the tax effects on amortization of intangible assets; and restructuring expense, partially offset by the net deferred income tax benefit that was previously recorded due to the partial realignment of our legal entity structure.

(1) The sum of the quarterly information presented may vary from the year-to-date information presented due to rounding.

(2) We compare the percent change in the results from one period to another period using constant currency disclosure. We present constant currency information to provide a framework for excluding the effect of foreign currency rate fluctuations. To present this information, current and comparative prior period results for entities reporting in currencies other than United States exchange rates in effect on May 31, 2024 and 2023 for the fiscal 2025 and fiscal 2024 constant currency growth rate calculations presented, respectively, rather than the actual exchange

APPENDIX A

ORACLE CORPORATION Q4 FISCAL 2025 FINANCIAL RESULTS EXPLANATION OF NON-GAAP MEASURES

To supplement our financial results presented on a GAAP basis, we use the non-GAAP measures indicated in the tables, which exclude certain business combination accounting entries and expenses related to acquisitions, as well as other significant expenses including stock-based compensation, that we believe are helpful in understanding our past financial performance and our future results. Our non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. Our management regularly uses our supplemental non-GAAP financial measures internally to understand, manage and evaluate our business and make operating decisions. These non-GAAP measures are among the primary factors management uses in planning for and forecasting future periods.

- Stock-based compensation expenses: We have excluded the effect of stock-based compensation expenses from our non-GAAP operating expenses, income tax effects and net income measures. Although stock-based compensation is a key incentive offered to our employees, and we believe such compensation contributed to the revenues earned during the periods presented and also believe it will contribute to the generation of future period revenues, we continue to evaluate our business performance excluding stock-based compensation expenses. Stock-based compensation expenses will recur in future periods.
- Amortization of intangible assets: We have excluded the effect of amortization of intangible assets from our non-GAAP operating expenses, income tax effects and net income measures. Amortization of intangible assets is inconsistent in amount and frequency and is significantly affected by the timing and size of our acquisitions. Investors should note that the use of intangible assets contributed to our revenues earned during the periods presented and will contribute to our future period revenues as well. Amortization of intangible assets will recur in future periods.
- Acquisition related and other expenses; and restructuring expenses: We have excluded the effect of acquisition related and other expenses and the effect of restructuring expenses from our non-GAAP operating expenses, income tax effects and net income measures. We incurred expenses in connection with our acquisitions and also incurred certain other operating expenses or income, which we generally would not have otherwise incurred in the periods presented as a part of our continuing operations. Acquisition related and other expenses consisted of personnel related costs for transitional and certain other employees, certain business combination adjustments including certain adjustments after the measurement period has ended, and certain other operating items, net. Restructuring expenses consisted of employee severance and other exit costs. We believe it is useful for investors to understand the effects of these items on our total operating expenses. Although acquisition related and other expenses and restructuring expenses may diminish over time with respect to past acquisitions and/or strategic initiatives, we generally will incur certain of these expenses in connection with any future acquisitions and/or strategic initiatives.
