Oracle Announces Record Q4 and FY 2026 Results Driven by Cloud Infrastructure & Cloud Applications

June 10, 2026

- Record Remaining Performance Obligations grew \$85 billion in Q4 from \$553 billion to \$638 billion
- Record Q4 Earnings per Share GAAP up 21% USD to \$1.45, non-GAAP up 24% USD to \$2.11¹
- Record Q4 Total Revenues \$19.2 billion, up 21% USD, and up 20% constant currency
- Record Q4 Total Cloud Revenues \$9.9 billion, up 47% USD, and up 46% constant currency
 - Q4 Cloud Infra (IaaS) Revenue \$5.8 billion, up 93% USD, and up 92% constant currency
 - Q4 Cloud Apps (SaaS) Revenue \$4.1 billion, up 10% USD, and up 9% constant currency
- Record FY 2026 Earnings per Share GAAP up 34% USD to \$5.83, non-GAAP up 27% USD to \$7.63¹
- Record FY 2026 Total Revenues \$67.4 billion, up 17% USD, and up 16% constant currency
- Record FY 2026 Total Cloud Revenues \$34.0 billion, up 39% USD, and up 37% constant currency
 - FY 2026 Cloud Infra (IaaS) Revenue \$18.1 billion, up 77% USD, and up 75% constant currency
 - FY 2026 Cloud Apps (SaaS) Revenue \$15.9 billion, up 11% USD, and up 10% constant currency

AUSTIN, Texas, June 10, 2026 /PRNewswire/ -- Oracle Corporation (NYSE: ORCL) today announced another record quarter with strong revenue growth across its Cloud Infrastructure and Cloud Applications businesses. Total quarterly revenues increased 21% to \$19.2 billion, reflecting broad-based demand for Oracle's industry-leading cloud technology and applications suites. Cloud revenues (IaaS + SaaS) increased 47% to \$9.9 billion driven by 93% growth in Cloud Infrastructure (IaaS), and 10% growth in Cloud Applications (SaaS). Software revenues were down 2% to \$6.8 billion, reflecting our customers' continuing migration from on-premise software to the Cloud. Services revenues were \$1.5 billion, up 13%, and Hardware revenues were \$0.9 billion, up 9%.

[Skip to main content](#)

Oracle generated Q4 GAAP operating income of \$6.1 billion, up 20%, while non-GAAP operating income rose to a record \$8.6 billion, up 22%, driven by strong revenue growth and operating efficiency actions taken during the quarter. GAAP net income available to common shareholders reached \$4.2 billion, up 23%, and non-GAAP net income available to common shareholders grew to \$6.2 billion, up 26%. Q4 GAAP earnings per share increased to \$1.45, up 21%, and non-GAAP earnings per share climbed to \$2.11¹, up 24%.

Financial Results for FY 2026

Fiscal year 2026 total revenues were up 17% to a record \$67.4 billion. Cloud revenues increased 39% to \$34.0 billion. Software revenues were down 1% to \$24.5 billion. Services revenues were \$5.7 billion, up 10%, and Hardware revenues were \$3.1 billion, up 5%.

Fiscal year 2026 GAAP operating income was \$20.6 billion, up 17%, and non-GAAP operating income rose to a record \$28.9 billion, up 16%. GAAP net income available to common shareholders reached \$17.0 billion, up 36%, while non-GAAP net income available to common shareholders grew to \$22.2 billion, up 29%. GAAP earnings per share increased to \$5.83, up 34%, while non-GAAP earnings per share climbed to \$7.63¹, up 27%.

Oracle's strong operating income translated to record fiscal year operating cash flow of \$32.0 billion, up 54%. Free cash flow was negative \$23.7 billion for fiscal year 2026 as Oracle continued to execute on investments to support the growth of its Cloud Infrastructure business.

Remaining Performance Obligations

Remaining Performance Obligations, or RPO, ended the quarter at \$638 billion, up 363% USD year-over-year and up \$85 billion sequentially from the end of Q3.

Most of the RPO increase in both Q3 and Q4 were large scale AI contracts where the customer prepaid Oracle for the purchase of the GPUs, or the customer bought and supplied the GPUs to Oracle. The prepaid and customer supplied hardware portions of our large AI contracts now total \$75 billion. This substantially reduces the amount of capital Oracle must raise to build out our AI datacenters.

Capital Investment Program and Capital Funding

Oracle's capital investment program supports the pursuit of unprecedented opportunities in AI Cloud Infrastructure as described at our most recent Financial Analyst Meeting. In fiscal year 2026, Oracle raised \$43 billion in debt financing and \$5 billion in equity financing. In fiscal year 2027, Oracle expects to raise approximately \$40 billion through a combination of debt and equity financing including its previously announced \$20 billion at-the-market equity issuance. Oracle does not expect to issue additional debt in calendar year 2026.

Guidance for Q1 FY 2027

[Skip to main content](#)

Oracle is providing the following forward-looking guidance for Q1 FY 2027:

- Non-GAAP earnings per share is expected to grow between 16% and 19% and be between \$1.71 and \$1.75 in constant currency and grow between 17% and 20% and be between \$1.72 and \$1.76 in USD.

Guidance for Full FY 2027

For fiscal year 2027, we confirm our prior revenue guidance of \$90 billion total revenue and raise our non-GAAP EPS guidance to \$8.05, which is growth of 18%¹ after adjusting for the one-time events of selling our Ampere chip business and Bloom Energy warrants in fiscal year 2026.

AI Market and Technology Evolution

The large increases in Oracle's RPO and revenue are driven by the growing demand for cloud infrastructure for AI training and inferencing. Oracle is building datacenters that are intended to use clean energy from natural gas fuel cells to generate electricity with minimal emissions. Other innovations in the areas of high-performance networking, advanced security and autonomous software have made Oracle the world's fastest growing provider of cloud datacenters.

Our database and applications businesses are both benefiting from Oracle's early adoption of AI. The Oracle Multicloud AI Database grew 404% in Q4—making it our fastest growing business ever. The Oracle Health application suite will soon include a completely new AI version of the Cerner hospital and clinic patient care management system. We expect this new AI patient care management system to push the growth rate of the overall Oracle Health business to double-digits in fiscal year 2027. And this is just the beginning of the expansion of the Oracle Health business.

We believe AI is about to completely revolutionize healthcare. Improvements in patient care are expected to yield much better patient outcomes, while dramatically lowering the cost of healthcare throughout the world. Oracle Health AI systems will allow doctors to spend less time with computers and more time with patients. AI molecular design models are expected to enable researchers to accelerate the development of life-saving drugs. Oracle's new AI clinical trial system is designed to enable regulators to rapidly review and approve clinical trial test results enabling patients to get access to new drugs sooner. AI will make healthcare better, more accessible, and less expensive.

Common Stock Quarterly Dividend

The board of directors declared a quarterly cash dividend of \$0.50 per share of outstanding common stock. This dividend will be paid to stockholders of record as of the close of business on July 10, 2026, with a payment date of July 24, 2026.

Footnotes

¹ – Q4 and FY 2026 results include one-time net investment gains from certain transactions. Excluding these investment gains, Q4 non-GAAP EPS would be \$2.03, up 20% in USD and up 18% in constant currency and FY 2026 non-GAAP EPS would be \$6.83, up 13% in USD and up 11% in constant currency. Excluding these same investment gains, FY 2027 non-GAAP EPS growth would be 18%.

Earnings Conference Call and Webcast

Oracle will hold a conference call and webcast today to discuss these results at 4:00 p.m. Central. A live and replay webcast will be available on the Oracle Investor Relations website at www.oracle.com/investor/.

About Oracle

Oracle offers integrated suites of applications plus secure, autonomous infrastructure in the Oracle Cloud. For more information about Oracle (NYSE: ORCL), please visit us at www.oracle.com.

Trademarks

Oracle, Java, MySQL, and NetSuite are registered trademarks of Oracle Corporation. NetSuite was the first cloud company—ushering in the new era of cloud computing.

"Safe Harbor" Statement: Statements in this press release relating to future plans, expectations, beliefs, intentions and prospects, including statements regarding expected future revenues, cloud revenue growth, earnings per share, remaining performance obligations, future customer demand for AI and cloud infrastructure services, future capital expenditures and financing requirements, planned debt and equity financing activities, planned datacenter expansion and technology deployment, future product offerings and enhancements, anticipated benefits of AI technologies and AI-enabled healthcare solutions, expected growth of Oracle Health, future market opportunities and future dividend payments are "forward-looking statements" and are subject to material risks and uncertainties. Risks and uncertainties that could affect our current expectations and our actual results, include, among others: our ability to develop new products and services, integrate acquired products and services and enhance our existing products and services, including our AI products; our management of complex cloud and hardware offerings, including the sourcing of technologies and technology components such as graphic processing units; our ability to anticipate, plan for, secure and manage datacenter capacity; significant coding, manufacturing or configuration errors in our offerings; risks associated with acquisitions; business volatility and risks associated with government contracting; economic, political and market conditions, including tariffs and trade wars; information technology system failures, privacy and data security concerns; cybersecurity breaches; unfavorable legal proceedings, government investigations, and complex and changing laws and regulations. A detailed discussion of these factors and other risks that affect our business is contained in our SEC filings, including our most recent reports on Form 10-K and Form 10-Q, particularly under the heading "Risk Factors." Copies of these filings are available online from the SEC or by contacting Oracle's Investor Relations Department at (650) 506-4073 or by clicking on SEC Filings on the Oracle Investor Relations website at www.oracle.com/investor/. All information set forth in this press release is current as of June 10, 2026. Oracle undertakes no duty to update any statement in light of new information or future events.

(1) To supplement our statements of cash flows presented on a GAAP basis, we use non-GAAP measures of cash flows on a trailing four-quarter basis to analyze cash flow generation. Free cash flow is also useful as one of the bases for comparing our performance with our competitors. The presentation of non-GAAP free cash flow is not meant to be considered to net income as an indicator of our performance, or as an alternative to cash flows from operating activities as a measure of liquidity.

* Not meaningful

NET CASH OUTLAY FOR CAPITAL EXPENDITURES - TRAILING FOUR-QUARTERS (1)						
(\$ in millions)						
	Fiscal 2025				Fiscal 2026	
	Q1	Q2	Q3	Q4	Q1	Q2
Capital Expenditures	\$ (7,855)	\$ (10,745)	\$ (14,933)	\$ (21,215)	\$ (27,414)	\$ (35,477)
Less: Other Short-Term Financing Cash Flow Related to Capital Expenditures (2)	-	-	-	1,422	3,380	2,620
Less: Customer Prepayments with Significant Financing Component for Capital Expenditures (3)	-	-	-	-	-	-
Net Cash Outlay for Capital Expenditures	\$ (7,855)	\$ (10,745)	\$ (14,933)	\$ (19,793)	\$ (24,034)	\$ (32,857)

component for capital expenditures. We believe this supplemental presentation of net cash outlay for capital expenditures is useful because it provides additional information funding of our capital expenditures and is used by management when forecasting expected capital expenditures.

- (2) Represents other short-term financing cash flows related to capital expenditures as reported in cash flows from financing activities in our statements of cash flows. We use third-party manufacturers to produce most of our cloud infrastructure assets and in some cases supply them with components purchased directly from suppliers. Certain of these arrangements result in a purchase order and paid to third-party manufacturers presented within financing activities in our statements of cash flows.
- (3) Represents customer prepayments with significant financing component as reported in cash flows from operating activities in our cash flow statements presented in accordance with GAAP.

(1) The sum of the quarterly information presented may vary from the year-to-date information presented due to rounding. (2) We compare the percent change in the results from one period to another period using constant currency disclosure. We present constant currency information to provide a framework for rate fluctuations. To present this information, current and comparative prior period results for entities reporting in currencies other than United States dollars are converted into United States dollars using 2025 constant currency growth rate calculations presented, respectively, rather than the actual exchange rates in effect during the respective periods.					

APPENDIX A

ORACLE CORPORATION
Q4 FISCAL 2026 FINANCIAL RESULTS
EXPLANATION OF NON-GAAP MEASURES

[Skip to main content](#)

To supplement our financial results presented on a GAAP basis, we use the non-GAAP measures indicated in the tables, which exclude certain significant expenses including stock-based compensation, expenses

read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. Our management regularly uses our supplemental non-GAAP financial measures internally to understand, manage and evaluate our business and make operating decisions. These non-GAAP measures are among the primary factors management uses in planning for and forecasting future periods. Compensation of our executives is based in part on the performance of our business based on these non-GAAP measures. Our non-GAAP financial measures reflect adjustments based on the following items, as well as the related income tax effects related to each of the below items except for the impact of the U.S. One, Big, Beautiful Bill Act:

- Stock-based compensation expenses: We have excluded the effect of stock-based compensation expenses from our non-GAAP operating expenses, income tax effects and net income measures. Although stock-based compensation is a key incentive offered to our employees, and we believe such compensation contributed to the revenues earned during the periods presented and also believe it will contribute to the generation of future period revenues, we continue to evaluate our business performance excluding stock-based compensation expenses. Stock-based compensation expenses will recur in future periods.
- Amortization of intangible assets: We have excluded the effect of amortization of intangible assets from our non-GAAP operating expenses, income tax effects and net income measures. Amortization of intangible assets is inconsistent in amount and frequency and is significantly affected by the timing and size of our acquisitions. Investors should note that the use of intangible assets contributed to our revenues earned during the periods presented and will contribute to our future period revenues as well. Amortization of intangible assets will recur in future periods.
- Restructuring and other expenses: We have excluded the effect of restructuring and other expenses from our non-GAAP operating expenses, income tax effects and net income measures. We incurred expenses in connection with our restructuring activities and also incurred certain other operating expenses or income, which we generally would not have otherwise incurred in the periods presented as a part of our continuing operations. Restructuring and other expenses consist of employee severance costs and other exit costs related to our restructuring activities, certain asset impairment charges and certain other operating items, net. We believe it is useful for investors to understand the effects of these items on our total operating expenses.
- Impact of the U.S. One, Big, Beautiful Bill Act (OBBBA): OBBBA was signed into law on July 4, 2025. We recorded a net tax expense of \$933 million for the full year of fiscal 2026, primarily related to the remeasurement of a deferred tax liability previously recorded during fiscal 2021, as part of the partial realignment of our legal entity structure. We have excluded the impact of this charge from our non-GAAP income taxes and net income measures in fiscal 2026. We believe making these adjustments provides insight to our operating performance and comparability to past operating results.
